**Voice your Opinion to the BC Environmental Assessment Office**

The BC EAO will be accepting public comments from now until Feb 1, 2012 on Vancouver Airport Fuel Facilities Corporation (VAFFC) proposal Addendum to change the pipeline route from residential neighborhoods to Hwy 99 right of way. However, this new proposal does nothing to address significant public safety and environmental concerns posed by transportation of large tankers of toxic and flammable of jet fuel up the Fraser River where it will be unloaded and stored on the banks of the river in an 80 million liter tank farm. Go to BC EAO website and the comment link can be found at:

**[Vancouver Airport Fuel Delivery Project Comment form](#)** Deadline: February 1

**Attend the VAFFC OPEN HOUSE: Jan 28, 2012 10:00 am to 2:00 pm**

East Richmond Community Hall, 12360 Cambie Road , Richmond , BC

**Come and state your opposition to this high risk proposal that is a threat to public safety, the river, its estuary and its fish and wildlife populations.**

It is also very important to send your comments and opinions to your elected representatives. Below are a few suggested e-mail contacts:
